

TURTLE BAY

Turtle Bay Resort Policy regarding Drones have been established for the safety of all our employees, guests, vendors, contractors, & news media. Drone Policy is designed for the protection of our guests, vendors, staff, and owners, and pertains to the presence of Drones within our hotel property. Drone users are to inform TBR Management on intent to use and or possession of a Drone. See Guidelines.

- Always fly your Drone safely and within FAA guidelines and regulations.
- Guests / Vendors / Contractors / News Media must abide by all Federal, State, and Local laws.
- Drone launching, or landing are prohibited in any of Hawaii’s State Parks.
- Drones are not to be utilized inside the hotel or guest areas, such as the pool.
- Drones must be safeguarded and kept away from flying over people and large crowds.
- Drones cannot be flown over our lanais or by neighboring windows.
- Damages caused by Drones will be charged accordingly.
- Drones may only be flown with the permission of Resort Management.
- Management may ask you to bring your drone down for not complying to policy. Refusal may lead to being asked to leave the hotel premises and may be subject to trespass and or subject to further legal action.
- Shooting dates and times must be clearly disclosed to the Resort and Paradise Helicopters, (808-293-7588)

Exempted from this policy are law enforcement officers and designated military personnel who are in the performance of their duties. No exemption to this policy is allowed for private persons, under local, state, or federal law.

It is our policy to promptly turn over any Drones left or lost on our property to our Security Department for safe keeping if we are unable to contact the owner. Questions concerning these policies, or its implementation may be addressed to the hotel management team.
